

Mohamed Miled

Tunisia • Monastir, 5000 • m.miled@yahoo.fr • github.com/MiledAmer • +216 29862385

Education

University of Monastir

Bachelor's Degree in Computer Science

Monastir

2024/2025

Experience

SW Consulting

Full-Stack Developer

Bouhjar, Monastir

2024 - Present

- Led the development and transformation of 4+ projects, including Atoll Palme's Internal Marketplace and CreditWiin / 2lCourtage's CRM.
- Enhanced a legacy Vue.js and Laravel CRM (Batigo), improving functionality, UX, and boosting performance by 70%.
- Performed in-depth bug fixing and performance tuning, boosting system stability and reducing incidents by 35%.
- Designed and structured databases for two full-scale projects, ensuring scalability and data integrity.
- Implemented a fully-typed and generic role & permission system using TypeScript, enhancing type safety and reducing runtime errors by 40%.
- Built a robust, modular architecture for quote and invoice creation, supporting multiple business rules and dynamic document generation.
- Designed and implemented a flexible invoice template generator, allowing dynamic layout customization and easy template switching.

Freelance

Full-Stack software engineer

Remote

2022 - Present

- Built and launched *ShelfSuccess*, a Next.js blog reaching 10K+ monthly visitors and 1K+ newsletter subscribers within 6 months.
- Contributed to the development of the e-commerce platform *Tictacpneu* as a freelance developer, supporting 5000+ monthly users and 1000+ products.
- Built a SaaS tool for generating invoices and quotes, used by 50+ clients and automating over 1,000 documents monthly.
- Implemented a custom stock tracking system, managing real-time product states across delivery, inventory, and sales operations.
